AIB Token

The native utility token that drives the BitWealth ecosystem.

AI Bit Token (AIB) is the native utility token of the BitWealth ecosystem, offering holders access to premium features, governance rights, and rewards. It supports staking for enhanced rewards, advanced trading bot access, and participation in governance decisions. With limited supply and increasing utility, AIB is set to be a valuable asset in the crypto trading ecosystem.

AIB Token

The AIB token economy is designed to align incentives between all stakeholders, ensuring long-term sustainability and growth of the BitWealth ecosystem.

Token allocations are structured to reward active participants while maintaining sufficient reserves for development, marketing, and liquidity provision.
